

THE FLORIDA FLAG INITIATIVE

The Florida League of the South invites you to participate in its campaign to promote the display of the Florida State flag.

Under the Articles of Confederation, the central government in Washington, DC was created by the sovereign States as an agent for their common interests and was thus delegated few, specific powers. The States and the People retained all other powers. But military force, court decisions, laws, and executive orders have overturned all of this. Just as our ancestors feared, the central government has become supreme, defining the limits of its own power. The states have been relegated to the role of mere departments in a nationalized system. This is not the Federated Republic bequeathed us by our Founders.

Now, the symbol of this usurpation of power, the U.S. flag, flies in our faces as a daily reminder of our subjugation. The servant has become the master. The flag of the American empire now diverts our attention from our own capitol in Tallahassee to Washington, DC. And rather than representing freedom and liberty, that flag has come to represent the destruction and banning of Southern culture, as well as the promo-

tion of sodomite marriage, abortion on demand, a confiscatory taxation system, stifling regulations, the death of our children in a series of no-win wars and too many other ills to catalog here.

The Florida League of the South now asserts that it is imperative that we restore the message of state sovereignty to the people of Florida. The first step in this return journey *must* take place in the minds of the People. Citizens should look first to their States and Local Communities, and not to Washington, DC.

Yet few Florida flags, the symbol of State sovereignty, are flown to remind our People where their loyalties and responsibilities primarily belong. This must change. The Florida League of the South is leading the way to restore the pride of our People in the Sovereignty and heritage of their State. We want Floridians to think of Florida first.

Therefore, we are asking everyone in the

Florida's Capitol Building

sovereign State of Florida from government and business, to private citizens to proudly display our state flag. The U.S. flag can be flown over Federal buildings, Post Offices and military installations; elsewhere, however, we need to see the flag of the State of Florida prominently displayed.

There is no reason why the U.S. flag should fly over the Florida State Capitol or any other state or local governmental building. Moreover, service stations, car dealerships, restaurants, libraries, schools, and homes should be encouraged to wave the State flag and not the Federal banner.

This is Florida, and we are *not* a preserve of the government in Washington, DC. Let's stop acting like we are and thus begin the journey back to Sovereign State Government.

Show your pride, and fly your State Flag!

MEMBERSHIP IN THE FLS

All levels of membership are for one year.

As a member, you will be on the front lines of history in the making as we bring sovereignty and independence to a free Florida republic.

To join and/or view membership information
