

TOP 10 REASONS WHY WE DON'T NEED WASHINGTON

1. Excessive, invasive, and confiscatory taxation
2. A totally corrupt political system - the three branches of government have been compromised, and the Constitution cannot and will not save us
3. Freedom from federal overreach and judicial activism
4. To reclaim our historic morality and Christian value system
5. Far too many regulations and restrictions on businesses and individuals
6. To reclaim our legal system and the freedom to set our own decency standards
7. To eliminate intrusions into our personal and private lives, while restoring respect for our history, culture and traditions
8. For free states to negotiate their own free trade policies with foreign nations
9. The framers intended a confederation of free and independent states, not a "one size fits all" political abstraction
10. No redress of grievances
